

## PFT Levelling pin Part no. 20 23 01 00

### Field of application:

for floor screed workers:

levelling of the ground before pouring the floor

for dry construction:

levelling of ceilings; fixing of the height base

### Operating instruction:

Floors or ceilings can be levelled with the PFT Levelling pin by one person. This device is easy to handle. You can fix accidentals for mounting mature ceilings and, thanks to the PFT Tripod, you can fix the accurate height of the floor screed.

### Advantages:

- ▶ Accurate levelling
- ▶ Operation by 1 person
- ▶ Independent of power as it is a mechanical device
- ▶ Ready for application with a few steps
- ▶ Safely packed in a solid metal box
- ▶ Easy to handle

### Equipment:

- ▶ Basic device with a 20 m measuring hose
- ▶ Measuring stick
- ▶ Compact and solid metal box

### Accessories recommended:

- ▶ PFT Tripod for floor screed Part no. 20 23 00 00  
(Recommended first equipment: 10 pieces)
- ▶ Stick for ceiling levelling Part no. 20 23 05 00
- ▶ Extension of stick Ø 10 mm Part no. 20 23 01 30
