

PFT SILOJET XXL

Free fall conveying unit for larger conveying distance

Perfect for construction sites without a direct parking space for silos. The technology, the fully automatic control and controlling conveyor system can be conveyed up to three times more with material, a large time advantage by an high conveying distance, which saves money.

TECHNICAL DATA

Part no.	00 25 55 74
Conveying distance	max. 200 m
Conveying capacity	max. 24 kg / min
Power connection	400 V, 3 Ph, 50 Hz, 8.1 kW
Compressor	
Capacity	8.1 kW
Pressure max.	2.8 bar
Air capacity	140 Nm ³ /h
Conveying pot height	980 mm
Conveying pot content	55 litres
Dimensions: L/W/H	1,280/600/780 mm
Weight	~ 356 kg

Kindly note:
All details depends on the used materials.

ADVANTAGES AT A GLANCE

- Conveying distance up to 200 m
- Bypass, manually controllable for stiff materials and longer conveying distance
- Low installation effort
- Automatic silo ventilation
- Compact design
- No transport effort thanks to permanent installation
- In accordance with CE-Directives
- Conveys directly to the processing site
- Suitable for container/silo discharge flange Ø 250 mm
- Anti-clogging program

FIELDS OF APPLICATION

- Interior plaster
- Exterior plaster
- Masonry mortar

Job site:

- Building and underground construction
- Defecator
- Industry (e.g. finished parts)
- Area of fertilizer

ACCESSORIES

- Extension cable 5 x 4 mm², RED 5-32 A – 50 m
- Conveying hose - initial equipment RONDO air DN45 - 73.3 m
- Conveying hose - initial equipment braided hose DN45 - 75 m
- Injection hood with level sensor and control cable
