

# Aquapanel Exterior

## Knauf Aquapanel Exterior Dispersion Plaster

### Knauf Aquapanel Exterior Boards and Accessories

Aquapanel Exterior cement board technology sets new standards for the design and construction of buildings across Europe. Aquapanel Exterior offers a high quality and economical alternative to traditional methods of construction, such as brick and block. It provides a solid, dry base that can withstand the extreme weathering effects of wind, rain and snow. It is an ideal substrate for Aquapanel Plaster and other render finishes (subject to approval). It can be used for exterior walls in ventilated systems, water managed (directly applied) systems, exterior ceilings and soffits.

Aquapanel Exterior Dispersion Plaster is a white ready-to-use finishing plaster with a maximum grain size of 2mm for applying on Aquapanel Exterior Basecoat and Aquapanel Exterior Primer. It is water repellent and allows diffusion with  $sd > 0.1m$ . It is also available in 212 colour shades, subject to a premium and a minimum order quantity – please contact Knauf for details.

Compliance: EN15824

| Tub Size | Material No. | Pallet Details |                  |
|----------|--------------|----------------|------------------|
| Kg       |              | Tubs           | Tonnes (Approx.) |
| 25       | 87268        | 24             | 0.6              |

Estimating Guide: One tub will cover approximately 8m<sup>2</sup>.
